

Addition Word Problem

Addition

The local food bank was receiving donations from the community.

1. On Monday, they received 15 bags of rice and 28 bags of oats. On Tuesday, they received 18 bags of rice and 32 bags of oats. How many bags of oats did they receive in total?
2. They had 35 jars of peanut butter in storage and received 53 more jars this week. How many jars of peanut butter do they have now?
3. In the storage room, there are 18 boxes of cornmeal. There are 14 more boxes of oatmeal than cornmeal. How many boxes of cereal items (cornmeal and oatmeal) are there in total?
