

Animals and their foods

Animals

For each animal, write what it eats. Then write an: “H” if it’s a herbivore, a “C” if it’s a carnivore, or an “O” if it’s an omnivore.

Herbivore - an animal that just eats plants

Carnivore - an animal that eats mostly meats

Omnivore - an animal that eats both plants and meats.
