

Mixed addition and subtraction problems

Noah was helping his gym teacher, Mr. Davis, to clean up the storeroom for sports equipment.

1. There were 22 tennis racquets and 38 hockey sticks. How many more hockey sticks are there than tennis racquets?
2. Noah found 9 rugby balls in the storeroom. Mr. Davis said there should be a total of 15 rugby balls. How many rugby balls were missing?
3. There were 9 baseballs in a basket and Noah found 8 more baseballs on the floor. Then, a student borrowed 6 baseballs. How many baseballs were left in the storeroom?
