

Mixed addition and subtraction problems

Ethan was helping his P.E. teacher, Coach Miller, clean up the sports equipment room.

1. There were 20 basketballs and 32 soccer balls. How many more soccer balls are there than basketballs?
2. Ethan found 7 footballs in the equipment room. Coach Miller said there should be a total of 12 footballs. How many footballs were missing?
3. There were 8 tennis balls in a bin and Ethan found 5 more tennis balls on the floor. Then, a student borrowed 4 tennis balls. How many tennis balls were left in the room?
