

Subtraction (single digits)

Baker Leo had a busy day last Saturday.

1. He had 8 cartons of milk but used up 3 cartons on Saturday. How many cartons of milk did he have left?
2. He ordered 9 sacks of oats, but the supplier said they could only deliver 4 sacks on Monday. The rest would be delivered on Thursday. How many sacks of oats will be delivered on Thursday?
3. He had 6 jars of honey, but 2 jars broke on Friday because a shelf collapsed. How many jars of honey did he have left?
